

<Infection control efforts at Medical Health Center>

1.We have implemented social distancing measures through seat spacing in the lobby and other waiting areas, to prevent you from being in close contact with others.

★Lobby on the first floor
(you will have an assigned seat)

★Waiting space on the 2nd floor
(space between the person next to you is ensured)

2.Hand Hygiene

Please practice hand hygiene by using alcohol-based hand sanitizers upon arrival and inside the facility.

★Entrance of Medical Health Center

★Alcohol-based hand sanitizers are placed in key locations

3.Wearing a mask

To prevent droplet transmission at the facility, patients are requested to wear a mask at all times. We will deny entry to those who refuse to wear a mask.

★Signs displayed around elevators

★'Wear a Mask' sign

4.Sterilization of testing equipment

All testing equipment and items are sterilized with alcohol, etc. between each patient use.

5.All staff at the Medical Health Center are exercising great caution to prevent infection.
